More than 10 million people have now seen the undercover videos which show abortion clinics selling organs from babies they had aborted. Sometimes the organs were removed from aborted babies whose hearts were still beating.

The abortion clinics are run by Planned Parenthood, the world's biggest abortion chain. In Ireland they operate as the Irish Family Planning Association.

Planned Parenthood make huge profits by exploiting vulnerable women and killing unborn children. The undercover investigation by the Center for Medical Progress shows that Planned Parenthood also makes even more money by selling the body parts of babies they abort.

The videos are disturbing. Senior Planned Parenthood employees explain how abortion procedures are altered in order to obtain "*intact fetal cadavers*", i.e. babies delivered whole so their organs could be sold intact.

*"We've been very good at getting heart, lung, liver, because we know that, so I'm not gonna crush that part, I'm gonna basically crush below, I'm gonna crush above, and I'm gonna see if I can get it all intact,"* says Dr Deborah Nucatola, a senior doctor for Planned Parenthood, as she sips wine and eats salad.

“I WANT A  
LAMBORGHINI.”

DR MARY GATTER  
PLANNED PARENTHOOD

While negotiating a higher price for foetal parts, Dr. Mary Gatter laughed, “*I want a Lamborghini.*”

Medical technician, Holly O'Donnell, recalls how she was instructed to cut through the face of a baby (whose heart was still beating) in order to remove his brain intact, stating, “*She gave me the scissors and told me that I have to cut down the middle of the face. And I can't even describe what that feels like.*”

These shocking revelations have ignited a political firestorm in the U.S. Numerous states have now stopped funding Planned Parenthood.

This heartless sale of foetal body parts is the natural outcome of legalised abortion. This is what awaits Ireland if the 8th amendment – the article of our constitution which protects preborn babies - is repealed. Stripped of their protection under the law, the unborn are reduced to a “tissue specimen” in the eyes of abortion practitioners. Is this what we want for Ireland?

The Irish Family Planning Association (IFPA) has received an award from the Planned Parenthood Federation for their abortion campaigning in this country.

Pro-abortion campaigners and politicians who want to repeal the 8th amendment will open the door, not only to the legalised killing of preborn babies in Ireland, but also to the trafficking of their body parts. These procedures will take place in the abortion clinics being proposed for Ireland by the Labour Party and others.

Don't let this happen in Ireland. The legalisation of abortion results in the widespread abuse of human rights and the total disregard for the human person. We need to hold onto our pro-life laws - to protect mothers and babies from the barbarism of legalised abortion - and to uphold the dignity of every human person in our country.
