

you may not
care whether
this child lives
into the next
generation...

....but he does

**ABORTION IS FOREVER
GET THE FACTS**

ULTRASOUND

SEEING IS BELIEVING

“My life began at the moment of conception.

My heart has been beating since I was 18 days old.

My brain waves were recorded at just 40 days.

At 8 weeks I was perfectly formed.

I could grow up to be a doctor, a scientist, a father.

Abortion will end all of that.

I am alive. I am human.

I have an absolute right to life.”

Life begins at conception and ends with abortion. Methods of abortion include dilating the mother's cervix and cutting the baby to pieces with a curette knife. In a suction abortion, a hollow tube with a razor edge is inserted into the womb, tearing the baby apart and sucking the pieces into a container. In late-term abortions, the hysterotomy method removes the living child using an abdominal incision and leaves it to die in a bucket. The methods of abortion are as horrific as they sound - there is no easy way to kill a child.

Abortion means no judge, no jury, no trial, no appeal. **Just death.**

IT WAS THE FREE WHO DEFENDED SLAVERY.

**IT WAS THE NAZIS WHO DEFENDED
THE HOLOCAUST.**

AND IT IS THE BORN WHO DEFEND ABORTION.

THAT'S THE WAY OPPRESSION WORKS.

**A B O R T I O N I S F O R E V E R
