

When you  
have an  
abortion...

...something  
inside you dies

SEEING IS BELIEVING

**Women should never feel that their only choice is to kill their baby**

Abortion doesn't make you unpregnant - it makes you the mother of a dead baby. And women are left to live with that fact for the rest of their lives.

Anyone who thinks that abortion furthers womens' rights is mistaken. Many women suffer serious and prolonged adverse physical and psychological effects following abortion.

**WOMEN HAVE DIED FROM SO-CALLED SAFE LEGAL ABORTIONS. THEIR DEATHS HAVE BEEN DOCUMENTED IN MEDICAL JOURNALS THROUGHOUT THE WORLD AS HAVE THE OTHER ADVERSE EFFECTS OF ABORTION WHICH INCLUDE:**

**PHYSICAL EFFECTS:**

Severe Bleeding, Severe Infection, Increased risk of Breast Cancer, Sterility, Increased risk of ectopic pregnancy and Death

**PSYCHOLOGICAL EFFECTS:**

Prolonged Guilt, Depression, Suicidal thoughts and behaviour, Tendency to form abusive relationships, Drug and Alcohol addiction

Abortion referral agencies don't tell women these truths. And there's a good reason for that. It's bad for trade. Abortion is a lucrative business - one that makes huge profits every year from exploiting mothers and babies.

**WOMEN DESERVE BETTER THAN ABORTION**
